

## ◆ Product Summary

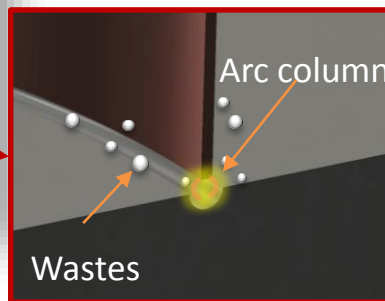

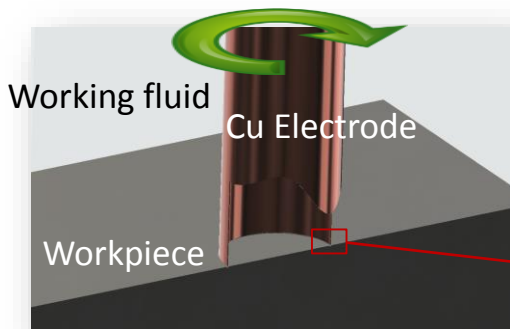

- Electrodes for Electrical Discharge Machining
- Precision pipe-wall formed by electroforming

## ◆ Features

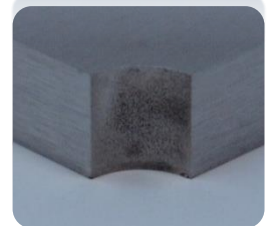

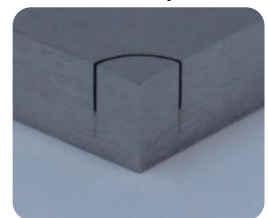

- Minimum flash, burr, and deformation by our original cutting method
- Caliber size:  $\Phi 0.1 \sim \Phi 40\text{mm}$
- Minimum thickness: 0.05mm
- Copper purity: over 99.99%

## ◆ Example of use

## Example

## ◆ Trial Product, Joint Development

- We make trial products as requested (3-week lead time).
- We support your project as joint development.
